Brembo Executive Chairman **Matteo Tiraboschi** stated: *“In a year that was still complex for the automotive industry, we strengthened our competitive positioning through the acquisition of Öhlins, the launch of sustainable solutions ahead of the Euro 7 regulation and the opening, in Shanghai, of a second Brembo Inspiration Lab, dedicated to AI solutions. Looking towards 2026, the geopolitical scenario has further deteriorated and the global automotive market has yet to show signs of recovery. In this challenging context, we continue to pursue a clear strategy: making our technological solutions increasingly integrated, enhancing their value and investing in product digitalisation.”*

Results at 31 December 2025

Brembo’s Board of Directors, chaired by Matteo Tiraboschi, examined and approved the Group’s results at 31 December 2025.

In the reporting period, Brembo's car segment declined by 5.2%, partly offset by the good performance of the aftermarket segment.

Motorbike applications decreased by 10.6% and applications for commercial vehicles by 10.5% compared to 2024. The racing segment, which included Öhlins’ revenues, grew by 52.9%.

At geographical level, Brembo's sales rose by 4.1% in Italy, by 11.0% in France and by 4.2% in the United Kingdom (+3.5% on a like-for-like exchange rate basis), whereas they declined by 3.4% in Germany.

India was essentially in line with the previous year (+8.6% on a like-for-like exchange rate basis), whereas China dropped by 9.9% (-6.5% on a like-for-like exchange rate basis).

The North American market (USA, Mexico and Canada) declined by 8.7% (-5.1% on a like-for-like exchange rate basis), whereas the South American market (Brazil and Argentina) grew by 8.8% (+17.4% on a like-for-like exchange rate basis).

At 31 December 2025, the cost of sales and other net operating costs amounted to €2,332.8 million, with a 63.0% ratio to sales, declining in percentage terms compared to the previous year (64.2% of sales, equal to €2,466.3 million).

Personnel expenses amounted to €766.7 million, with a 20.7% ratio to sales, increasing compared to the previous year (19.0% of sales, equal to €729.5 million).

At 31 December 2025, Brembo people numbered 15,875, compared to 15,461 at 31 December 2024 and 15,973 at 30 September 2025.

EBITDA amounted to €612.1 million (EBITDA margin: 16.5%) at 31 December 2025 compared to €661.1 million for 2024 (EBITDA margin: 17.2%).

EBIT amounted to €336.5 million (EBIT margin: 9.1%) compared to €393.3 million (EBIT margin: 10.2%) for 2024.

Net interest expense for the year totalled €39.8 million (€38.6 million at 31 December 2024) and included interest expense amounting to €34.7 million (€26.1 million at 31 December 2024) and net exchange losses of €5.1 million (€12.5 million at 31 December 2024).

Pre-tax profit was €295.6 million compared to €365.9 million at 31 December 2024. Based on the tax rates applicable under current tax regulations in force in each country, estimated taxes amounted to €81.5 million (€99.6 million at 31 December 2024), with a tax rate of 27.6%, slightly up compared to 27.2% for the previous year.

The year ended with net profit of €209.3 million compared to €262.6 million for the previous year.

In 2025, net investments amounted to €440.7 million, of which €33.6 million due to increases in leased assets.

Net financial debt at 31 December 2025 amounted to €719.2 million, down €128.0 million compared to 30 September 2025.

Outlook for 2026

In the absence of further geopolitical deterioration and given the automotive sector context that remains challenging, Brembo expects for 2026:

- Revenues in line with FY 2025 on a like-for-like exchange rate basis;
- EBITDA margin at around 16.5%, in line with 2025;
- Investments at about €350 million;
- Net financial debt below €700 million.

In a geopolitical and macroeconomic environment that makes forecasting very difficult, the Brembo Group will continue to monitor developments in the international context and the sector, and will update its guidance accordingly.
