

Öhlins announces partnership as Official Damper Supplier with Audi Revolut F1® Team

Upplands Väsby, Sweden - 15 October 2026 - Öhlins, a global leader in high-performance suspension solutions, that from 2025 is part of Brembo Group, has announced a new partnership with Audi Revolut F1® Team, coinciding with the team's first season in the pinnacle of motorsport.

Under the agreement, Öhlins serves as the official supplier of dampers to Audi Revolut F1® Team. The partnership builds on a joint development program focused on engineering, testing, and refining damper performance that preceded the team's debut this past March.

Urban Herslöf, Engineering Director, Öhlins Group:

*"We are proud to partner with Audi Revolut F1® Team in its debut season. For Öhlins, this is a defining moment for our legacy in motorsport, and **a powerful platform for us to extend our collaboration with Audi and help shape a new era of automotive performance.**"*

The partnership marks a key milestone in the long-standing racing relationship between Öhlins and Audi. From 1999 to 2016, Audi Sport competed at the 24 Hours of Le Mans, using Öhlins dampers in several generations of the Audi sports prototypes, a period in which the team secured 13 overall victories. Öhlins also supplied dampers to Audi for use in the prestigious DTM series in the 2000s, specifically for the Audi A4 DTM introduced in 2004.

As Audi continues its inaugural season, formalizing the partnership with Öhlins reflects a mutual commitment to technical rigor, engineering excellence, and performance at the highest level of motorsport.

Claes Hesling, Auto Racing Director, Öhlins Group:

*"Over the past 25 years, our collaboration with Audi has delivered strong results, **from thirteen overall victories at the 24 Hours of Le Mans and a podium finish in each of Audi's 18 appearances, to several successful seasons in DTM.** Building on that history, we are honored to join Audi Revolut F1® Team as the official supplier of dampers this season. With more than a decade of experience developing world-class solutions for motorsport teams, Öhlins is well positioned to bring its technical expertise and proven track record to this new chapter with Audi."*
