

RCS CORSA CORTA RR BREMBO LIMITED EDITION

To celebrate 50 years of involvement in motorsports, the company presents its flagship product in a limited, numbered edition kit with gold details.

Bergamo, 07 July 2025 – Brembo celebrates 50 years in racing with a special limited edition of its iconic RCS CORSA CORTA RR - Race Replica brake master cylinder. Packaged in a specially designed kit, the master cylinder comes with a brake fluid reservoir featuring a billet aluminum cap with the Brembo symbol in gold, and a special 50th anniversary reservoir cover wristband in black with a gold logo.

An evolution of the historic RCS CORSA CORTA, it stands out from the version currently on the market thanks to its titanium lever pin, the same used in MotoGP brake master cylinders. In addition, the Brembo logo on the selector is pad-printed in gold, and the pump body is laser-printed with the serial number to indicate its exclusive, limited production of only 500 pieces.

Machined from solid aerospace-grade aluminum alloy and finished with a hard anodizing treatment, its advanced technology comes directly from the brake master cylinders used in MotoGP and WorldSBK championships.

The lever allows riders to precisely adjust the "bite point" via an easily accessible selector on the top of the master cylinder. This selector operates a cam mechanism that lets users choose between three different responsive settings: Normal, Sport, and Race.

It is also equipped with the RCS (Ratio Click System), which enables adjustment of the braking force distribution without affecting overall system performance. This adjustment system gives riders complete feedback from their bike and allows them to tailor brake performance to their riding style, as well as to weather and road conditions.

This is why this radial master cylinder is considered the perfect choice for motorcyclists seeking a performance upgrade and fine-tuning of their bike setup, without compromising on aesthetics.

The RCS CORSA CORTA RR earned Brembo second Red Dot Award in 2023, the first having won in 2019 with the earlier RCS CORSA CORTA model. Award-winning design quality is the common thread between these products.

Officially unveiled during the MotoGP Grand Prix at Mugello, this kit will be available to enthusiasts starting in July 2025.

About Brembo

Brembo leads the world in the design and production of high-performance braking systems and components for top-flight manufacturers of cars, motorbikes and commercial vehicles. Founded in 1961 in Italy, the company has a long-standing reputation for providing innovative solutions for original equipment and aftermarket. Brembo is a key player in the world of racing: for 50 years, it has been the choice of the Teams competing in the most demanding motorsport championships worldwide and it has won more than 700 titles. The company also develops braking systems for mountain bike racing.

Guided by its strategic vision – “Turning Energy into Inspiration” – Brembo’s ambition is to help shape the future of mobility through cutting-edge, digital and sustainable solutions.

With over 16,000 people across 18 countries, 39 production and business sites, 10 R&D centers, 2 Inspiration Labs and with a turnover of € 3,840.6 million in 2024, Brembo is the trusted solution provider for everyone who demands the best driving experience.
