The Chairman noted that in 2025, despite a highly challenging geopolitical environment and a year that remained complex for the automotive industry, Brembo showed remarkable resilience and adaptability. We strengthened our competitive positioning through the acquisition of Öhlins, the launch of sustainable solutions ahead of the Euro 7 regulation, and the opening in Shanghai of a second Brembo Inspiration Lab, dedicated to AI solutions. Our revenues amounted to €3.7 billion, and we achieved an EBITDA of €612.1 million, or 16.5% of revenues. Net profit amounted to € 209.3 million. These results exceeded the market guidance, which was far from obvious given the conditions across the automotive sector.

Slide 4

Regarding Brembo performance across different segments and regions, due to the tough industry environment, our car segment declined by 5.2%, motorcycle applications declined by 10.6% and commercial vehicles by 10.5%. Racing applications, which now includes Öhlins' revenues, grew by 52.9%.

Slide 5

Geographically, Brembo sales experienced varied results. In Germany, sales dropped by 3.4%, while in Italy revenues grew by 4.1%. Sales declined in North America by 8.7% and in China by 9.9%, while India grew by 8.6% on a like-for-like exchange rate basis.

Slide 6

At the end of the year, the net debt was €719.2 million, increasing compared to the level of year-end 2024 largely driven by the €366 million acquisition of Ohlins. Operating cash flow for the year totaled €218.2 million. In 2025, Brembo invested €440.7 million, mainly to expand and strengthen its global industrial footprint.

Slide 7

The main financial ratios reflect the recent trends discussed, while underscoring the Group's resilience and balance sheet solidity.

Slide 8

The context remains challenging. In light of the current deteriorating geopolitical scenario, Brembo expects for 2026:

- revenues in line with FY 2025 on a like-for-like exchange-rate basis.
- EBITDA margin at around 16.5%, in line with 2025.
- Investments of about €350 million.
- Net financial debt below €700 million.

Brembo will continue to monitor developments in the international context and the sector and will update its guidance accordingly.

In conclusion, in an environment that is more challenging than ever, we remain firmly committed to driving growth and innovation. Our strategic initiatives and investments combine software capabilities with our expertise in the vehicle's corner, enabling us to continue delivering value to our shareholders and customers. We are confident that Brembo, guided by its purpose "Shaping a Zero-Accident Future", is well positioned to navigate the challenges and seize the opportunities ahead.

Every year, the Board will determine which part of the profits will be added to reserves, taking into account the financial condition, earnings, cash needs, working capital developments, capital requirements (including requirements of its subsidiaries) and any other factors that the Board deems relevant in making such a determination. The remaining profit will be put at the disposal of the general meeting.

This agenda item is standard in an annual general meeting in the Netherlands. According to Dutch law, the release from liability relates to facts which are apparent from the annual accounts or other information disclosed to the general meeting prior to the adoption of the annual accounts. The discharge therefore does not cover facts that were not disclosed to the general meeting prior to the adoption of the Annual Accounts 2025. Therefore, the Board of Directors proposes the re-appointment of nine of the current executive directors and non-executive directors and the appointment of two new non-executive directors, Ms. Alessandra Cozzani and Mr. Andrea Pirondini.

Based on the results of the 2025 Board Performance Evaluation and according to the instructions and recommendations provided by the Remuneration & Appointments Committee on March 12th, 2026, the Board of Directors believes that the directors to be re-appointed at this AGM contribute significantly to the Company and perform their duties effectively, demonstrating commitment to their role within the Company. Furthermore, the Board of Directors is confident that the newly proposed non-executive directors, given their expertise, cultural background, skillset and experience, will be valuable members of the Board of Directors. Considering the addition of Alessandra Cozzani and Andrea Pirondini, the Board of Directors will have the appropriate professional and diverse mix, independence and judgment to fulfill its responsibilities, execute its duties appropriately and have a good understanding of the current affairs and long-term risks and opportunities related to the Company's business.

- all proposed candidates are eligible and available for re-appointment and appointment.
- The relevant biographical details and curricula vitae of all candidates and the key terms of engagement of the executive directors to be re-appointed were posted on the Company's website.
- The Board of Directors composition complies with the Board Profile and the Company's DEI Targets for the Board of Directors.
- The remuneration of all directors will be in line with the Company's remuneration policy, as adopted by the general meeting on April 29th, 2025, for the years 2025, 2026 and 2027.

Accordingly, the Board of Directors recommends to the general meeting to appoint the candidates whose professional details are available on the Company's Website, as recommended by the Remuneration and Appointment Committee.

The Chairman moved on to the item 7 on the agenda, which entailed the authorization of the Board to repurchase shares in the capital of the Company. This was a voting item.

On April 29th, 2025, the Board of Directors was authorized by the general meeting to purchase ordinary shares for a period of 18 months in accordance with Dutch law and therefore such authorization ends on October 29th, 2026.

The Board of Directors deems it useful and appropriate to submit the proposal to replace the existing authorization to buy back ordinary shares with a new authorization for a period of 18 months, which will replace the previous authorization granted by the general meeting on April 29th, 2025.

The proposed authorization is for the Board of Directors to decide upon the acquisition of the Company's own ordinary Shares through purchases, for a period of 18 months from the day of this general meeting to October 29th, 2027, in one or more transactions, subject to market and business conditions and in compliance with applicable rules and regulations.

The Board of Directors' authority shall be limited to a maximum of 10,000,000 ordinary shares (equal to approximately 3% of the Company's total issued ordinary share capital on the day this AGM is convened) for a total consideration not exceeding €180,000,000. Purchases will take place for a minimum price per share, excluding expenses, not lower than the closing price of ordinary shares on the day preceding each purchase reduced by 10% and a maximum price not higher than the closing price of the ordinary shares on the day preceding each repurchase increased by 10%, to be taken from unrestricted reserves.

Since there were no questions, the Chairman turned to the voting results in respect of item 7 on the agenda.

The voting results were as follows:

In favor:	782,909,508	99.97%
Against:	223,929	0.03%
Abstain:	260	-

The Secretary hereby established that the meeting has authorized the Board of Directors to repurchase shares in the Company as proposed with 99.97% of the votes in favor.
