

TURNING ENERGY  
INTO INSPIRATION

Brembo is the global leader in the development and production of high-performance braking systems and components for the most prestigious manufacturers of cars, motorcycles, and commercial vehicles.

Founded in Italy in 1961, the company is recognized for its innovative solutions for original equipment and the aftermarket. Brembo is also a major player in the world's most challenging motorsport championships, including Formula 1 and MotoGP, having secured over 700 titles since 1975.

Today, Brembo is a Group with €3,840.6 million in revenue, employing over 15,000 people across 18 countries, 35 production sites, and commercial branches, and 9 R&D centers.

Research and development is central to the company's strategy. In this area, Brembo invests 6% of its revenue and employs 10% of its global workforce. In 2021, the Group opened its first Brembo Inspiration Lab in Silicon Valley, California, an excellence center dedicated to the latest frontiers of technological innovation, such as artificial intelligence and software applications.

Brembo has always combined process and product innovation with the pursuit of a unique style, in line with the vehicles it equips, creating in its applications a perfect synthesis of functionality and design.

Guided by its strategic vision "Turning Energy into Inspiration", Brembo aims to help shape the future of mobility through cutting-edge, digital, and sustainable solutions.
