SEVERE DUTY BRAKE PADS FACT SHEET

DELIVERING RELIABILITY, DURABILITY AND TOP PERFORMANCE

Severe Duty Overview

Brembo XTRA Ceramic Severe Duty Brake Pads are designed for heavy-use, heavy-duty braking. An ideal solution for pickup trucks, SUVs, commercial vehicles and police vehicles looking for a tough solution in the most demanding environments.

Product Features

The copper-free ceramic compound delivers safe, consistent braking performance. Brembo subjected the Severe Duty pads to several SAE-certified instrumented tests to validate performance[1]. Compared with the equivalent OE pad, Brembo Severe Duty displayed:

- **18% better stopping performance** compared with the equivalent OE pad.
- **10% improvement in fade resistance** compared with the equivalent OE pad.
- **33% noise reduction** compared with the equivalent OE pad.
- **13% improvement in wear resistance** compared with the equivalent OE pad.
- **Quiet, vibration-free comfort** with low dust output from the ceramic compound.

Design + XTRA Heritage

- **Distinctive Brembo design** featuring a silver backing plate and iconic Brembo red shim.

Use Case

- **Fleet applications** benefit from enhanced safety and durability in heavy brake use, including police fleets and commercial vehicles.
- **Frequent towing** in SUVs and trucks benefits from reduced fade and greater safety.
