

## JAC GROUP AND BREMBO SIGN STRATEGIC PARTNERSHIP TO DRIVE INNOVATION FOR FUTURE MOBILITY

***The two companies will work together to deliver enhanced braking technologies and advanced software solutions that meet the evolving needs of the market***

Hefei / Nanjing, February 6, 2026 – JAC Group, one of China's major automotive manufacturers, and Brembo, a global leader in braking solutions, signed a strategic cooperation agreement on February 5 aimed at strengthening long-term collaboration and driving innovation across future vehicle platforms.

The agreement marks a significant milestone for both companies, laying the foundation for a broader partnership built on a shared commitment to bring to market the latest technology for next generation mobility. Through this partnership, Brembo and JAC Group will work together to deliver enhanced braking technologies and advanced software solutions that meet the evolving needs of the Chinese automotive market.

Xiang Xingchu, Secretary of the Party Committee, Chairman and General Manager of JAC Group Holding Company, stated: *"Brembo is a global leader in braking technology and a trustworthy partner. With them, we have already laid a solid foundation through the previous collaboration on the Maextro S800. This strategic signing marks a new chapter in achieving resource complementarity and collaborative innovation across broader and deeper fields, jointly providing users with safer and more exceptional driving experiences."*

Daniele Schillaci, CEO of Brembo Group, emphasized: *"China is a strategic market for Brembo. This partnership represents an important step forward in our role as a true solutions provider. By combining our world-class braking hardware with proprietary software and digital capabilities, we deliver integrated, high-value solutions for our customers. We are honored to work alongside top Chinese manufacturers like JAC Group to shape, through our innovations, the next generation of new energy vehicles."*

The signing ceremony was held on February 5 in JAC Group headquarters in Hefei, attended and witnessed by senior executives from both parties, including Xiang Xingchu, Secretary of the Party Committee, Chairman and General Manager of JAC Group Holding Company; Qin Zhanjiang, General Manager of the Procurement Center of JAC Group Co., Ltd.; Daniele Schillaci, CEO of Brembo Group; Bogdan Bereanda, Brembo COO of the Foundation Brake Business Division; Ignacio Álvarez Troncoso, Brembo Chief Research and Development Officer; Aleksandar Gramatikov, Brembo China President and CEO. The ceremony was presided over by Ma Cuibing, Director of JAC Group Holding Company.

#### About JAC Group

Founded in 1964, JAC Group is a globally integrated automotive enterprise group that encompasses the full spectrum of R&D, production, sales, and services for both commercial and passenger vehicles. Operating across numerous sectors, including automotive mobility and financial services, the company has delivered over 10 million units of various products to users worldwide, establishing itself as a pivotal force in the rise of China's automotive industry. As a pioneer in China's new energy vehicle sector, JAC Group has consistently pursued iterative innovation. Over 18 years of industrialization, the company has accumulated leading core technologies in three key electric systems ("three-electric" technologies), completed its electric vehicle technology reserves, and strategically positioned itself in the intelligent automotive industry. In the field of smart vehicles, JAC Group established the first "Anhui Provincial Key Laboratory for Intelligent Connected Vehicle Technology" recognized by CNAS in China. It also operates the sole designated intelligent driving demonstration and operational testing base in Hefei City.

Amid its pursuit of intelligent transformation, JAC Group has fully advanced its collaboration with Huawei, coordinating their respective superior resources to cooperate on high-end intelligent NEV projects. On November 26, 2024, the first product under this deep collaboration—the luxurious Maextro S800—made its official debut. On December 16, 2024, the jointly developed world-class smart factory, the Maextro Super Factory, was officially completed. This factory is highly automated, digitalized, and green, representing one of the first zero-carbon industrial parks initiated in Anhui Province and the first fully 5G-connected factory in the province's automotive manufacturing sector. On May 30, 2025, the flagship model of its era, the Maextro S800, was launched, achieving over 18,000 cumulative orders within 175 days of its launch.

Simultaneously, JAC Group has deepened its strategic cooperation with the Volkswagen Group, explored new collaborative pathways with NIO, and accelerated ecosystem integration with industry chain partners such as CATL and iFLYTEK, fostering mutual growth and shared success.

#### About Brembo

Brembo leads the world in the design and production of high-performance braking systems and components for top-flight manufacturers of cars, motorbikes and commercial vehicles. Founded in 1961 in Italy, the company has a long-standing reputation for providing innovative solutions for original equipment and aftermarket. Brembo is a key player in the world of racing: for 50 years, it has been the choice of the teams competing in the most demanding motorsport championships worldwide and it has won more than 1000 titles, including the ones of premium suspensions producer Öhlins, which the Group acquired in 2025. The company also develops braking systems for mountain bike racing.

Guided by its strategic vision – “Turning Energy into Inspiration” – Brembo’s ambition is to help shape the future of mobility through cutting-edge, digital and sustainable solutions.

With over 16,000 people across 18 countries, 39 production and business sites, 10 R&D centers, 2 Inspiration Labs and with a turnover of € 3,840.6 million in 2024, Brembo is the trusted solution provider for everyone who demands the best driving experience.
